From THE MANAGER'S DESK

What's the answer to the question which is in everyone's mind .. What's happened to Marconi? A team with so many stars has fallen from grace - how a team with so many international players can lose so many matches. The first initial response would be to blame the Coach as he is the man in charge of the team. In our case I feel our problem is not the Coach but a combination of a number of factors. One factor would have to be the National team. For example, over the last six weeks the Marconi squad has been together as a complete squad at training on six occasions. In one particular instance the players were not seen for two weeks, then attended one 45 minute training session and had to play a major PSL match. Marconi has played seventeen matches this year and as yet we have not fielded the same team twice due to injury or suspension etc. How can a coach be expected to attain uniformity and cohesion under these conditions. This occurred last year as well.

A number of our players have I believe become "physiologically stale" i.e. they have had non-stop football for the last three years so consequently they have become flat. A number of people have said that our players have lost their pride to play for the Club - I totally disagree. To wear a Marconi shirt is an honour ... remember there is no club in Australia like Marconi ... this is where all great players come. Where else does one go after Marconi.

One of the saddest aspects of soccer is when a club goes through a bad period, the supporters seem to lose their faith in the players, the coach and the management. The simplest process possible would be to transfer players, sack coaches and appoint new directors etc ... but Marconi regards itself as a professional club ... you must have an alternative better than the present. I don't believe we have, because Marconi has the best players, it has the best coach and it has excellent directors, Tony Labbozzetta, Lorenzo Sartoretto, Costanzo Nicomede and Frank Baroni are all professional and intelligent men who all want the best for Marconi and isn't that what you supporters want.

Today we face our old rivals - Sydney City. Whenever two great clubs meet something is bound to happen - Remember the Charity Shield and the Philips Cup.

On behalf of Marconi-Datsun I extend a friendly soccer greeting to Sydney City.

No. 7

A "Free".

Meaning "free kick"—a place kick awarded following an infringement by an opposing player. Depending on the seriousness of the offence, the kick may be either "direct", from which a goal may be scored directly, or "indirect", from which a goal cannot be scored until the ball has been touched by a player other than the kicker.

SCORERS:

We'll show the world how good an airline can be.

Right now Alitalia aims to make itself the airline that other world airlines set their standards by.

We'll show you the world's finest planes.

At Alitalia we believe in keeping our fleet as up to date as your requirements.

We started flying the Boeing 747's on intercontinental routes way back in 1970 — so today, for example, you can relax in wide-bodied comfort from Rome right through to Australia.

And we were the first European airline to fly DC-10's into South America.

Either one offers you more space in space on our long-haul routes.

The B-727's together with the DC-9's and DC-8/62's complete our fleet, giving smooth, reliable flights between Italy and neighbouring countries.

We'll show you a smile.

Italians are friendly people who enjoy life. That's why our food and service are known throughout the world.

On board our planes they come with a smile, because we believe the happier we are the better we work.

We'll show you reliability.

At Alitalia we think the secret of a reliable plane is the reliability of the technicians who service it.

That's why behind every hour of flying time there are never less than 20 manhours of careful maintenance.

It's this kind of painstaking attention to detail by our 3,500 maintenance engineers that has led to their being chosen by other major worldwide airlines to maintain some of the equipment on their aircraft.

At Alitalia we're showing the world. So just ask your Travel Agent about us.

And let us show you too.

Alitalia

We'll show the world.
